ACH Reporting Files

The reports will show in the main section of the page. There are three different types of reports you may see. In the Report Description column, the reports will start with the following names:

- **ACH**—A listing of all incoming ACH transactions
- EDI—ACH EDI Reporting for incoming ACH transactions that contain EDI (Electronic Data Interchange) information
- ACHRETURNNOC—Returns and/or Notifications of Change for ACH Files your company originated

For each of these report types, depending on your entitlements, you may see multiple reports per day. If the report description has your company name or initials following the report type name (i.e. EDIJFG), that is a master EDI report for all of your accounts. If the report description has an account number following the report type name (i.e. EDI987654321), that report is specific to EDI for that account number only.

Click the three dots for the report that you need to view and click **Download Report**.

Thank You
