MAC OPERATING SYSTEMS ..................................................................... 6
**WINDOWS OPERATING SYSTEMS**

**INSTALLATION**

***Administrative rights should be granted in order to complete the installation***

1. Please review the necessary [system requirements](#) for DepositPartner to run properly.
2. Connect the scanner.
   a. Connect the USB cable to the back of the scanner, then to the computer.
   b. Connect the scanner power cable to the back of the scanner, then to an available power outlet.
3. Visit [files.panini.com](http://files.panini.com) and use the credentials below to download the Panini EverneXt Setup.exe.
   
   USERNAME: evernext@panini.com
   PASSWORD: P@ssw0rd
4. Double-click the Panini EverneXt Setup.exe to start the installation.
5. Click Save and Run. Then Click **Next** and **Install**.
6. Click Finish to finalize the Panini EverneXt setup process.

7. You can now access the scanner homepage via [https://192.168.101.1/](https://192.168.101.1/) (This is the IP address of the scanner).
   
a. If an error message is received or the Panini homepage does not display, continue to step 8.
   
b. If no error message is received and the page below appears, continue to step 13.

8. If you receive an error message and cannot access the site above, please see notes below on where to find the IP address and whether to use HTTP or HTTPS for the URL.

   Notes whether the scanner is HTTP or HTTPS enabled. In this case it is HTTPS enabled. This will note what site to use above. (eg. If the scanner says http you will navigate to [http://192.168.101.1/](http://192.168.101.1/)) you will also have to enable https for the scanner in the next step.

   This is the IP address of the scanner. In this case it is **192.168.101.1**.
9. Enable HTTPS for scanner.
   
   ![Configuration Screen]
   
   b. Click **Connection Parameters Setup**.
   
   ![Connection Parameters Setup]
   
   c. Click **Next**.
   
   d. Scroll to the bottom of the page.
   
   e. Next to **HTTPS**: select **Default Certificate**.
   
   ![Default Certificate Selection]
f. Click *Set Configuration*.

10. Reboot the scanner by clicking the *Reboot* button. Leave the scanner plugged in.

11. The LCD panel will turn orange and tell you it's rebooting. When it's finished, it will go from green to blue.

12. Close the browser. You are finished with this page.

13. Log in to the [DepositPartner website](#).

14. **Registering your scanner**
   a. After logging into DepositPartner, click the *Registration Tab* on the top menu bar.
   b. Click on *Re-Register*.
   c. Select the *Panini EverneXt* and enter the *Host Name* as 192.168.101.1.
   d. Click *Register*.

15. You can now submit deposits.

For assistance, please contact Treasury Management Support at 1-877-236-2739 or email to tmsupport@johnsonfinancialgroup.com.
MAC OPERATING SYSTEMS

INSTALLATION

***Administrative rights should be granted in order to complete the installation***
